

I'm contacting you out of concern for K-LOVE radio. It is my understanding that the signal that broadcasts this station in my area is in jeopardy due to possible LPFM signal conversion. Before any final decision is made, I want to help you understand how very important and valuable K-LOVE is (broadcast on 90.3 and 90.7FM).

We have so few (positive) options, when it comes to media, these days. In a world where we are barraged by discouraging news, K-LOVE offers something better...

I know many people here in North Branch who have directly benefitted from this important broadcast. Young people are listening, and finding hope where before there was none. They are developing strength of character, and moral values.

People can safely play the radio for their children, with no worry of what they might hear.

I became a listener just a couple years ago, and find the station essential. I am relaxed and uplifted by tuning in. There is help available to anyone - of any age - having difficulty, in any area of life. So many people are being helped.. I can't imagine what we would do without the support of this radio station. . It has helped my family, more than I can say. The messages they promote helped revive my marriage, it assists my children (now young adults) in making good decisions, and encourages volunteerism, Every day K-LOVE is on the air, people in this town are benefitting. I know of no other local organization that is half as involved in the public's interest. Please help us keep this great broadcasting available! Promote goodness..

Support K-LOVE!

Thank you for your consideration.

Mrs. Michele Donatelli
